ergonomics

innovation

the new “green” line

by viopsyctr

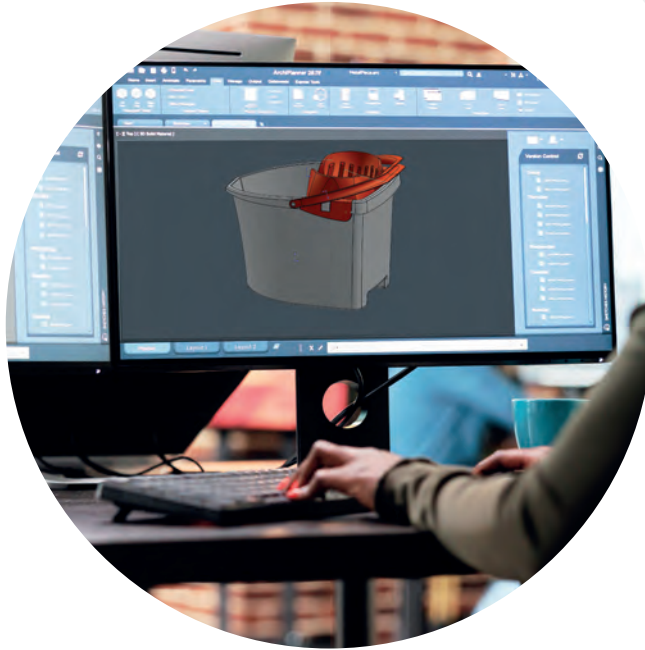

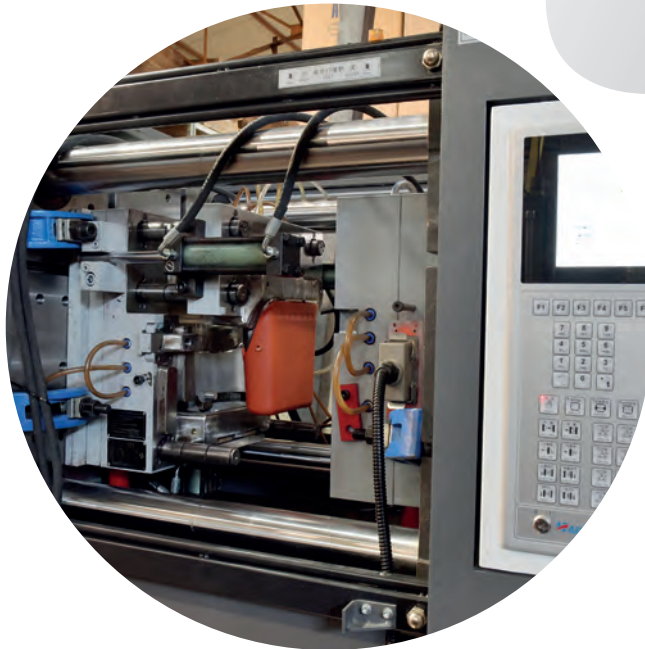

The **TAF line** series is addressed
to the consumer who seeks quality,
functionality and aesthetics combined
with durability, duration and
respect for the environment.

Recyclable raw material in
percentage up to 100%

we design practical products

we produce based on our Eco-Friendly Mindset

design & aesthetics

The **TAF line** bucket stands out.

It combines matte and glossy surfaces with high aesthetics and functionality.

It comes in Black, Dark Grey and also in three unique colors: Olive Green, Terracotta and Ocher, allowing all possible combinations with the **TAF line** strainers, depending on the personal aesthetics of each person or each space.

Capacity: 16 lt

ergonomics

The ergonomic design
of the **TAF line** bucket
simplifies draining as never before...

The practical, colorful strainer hugs
and drains the mop in an instant,
without any effort.

innovation

add color in your everyday life

Microfiber Mop

with Round Fiber

Microfiber:
It traps dust
and dirt
and it is ideal
for all surfaces

The **TAF line** mops with round fiber form an innovation and are flexible and effective.

Made of microfibers, they have high durability offering perfect cleaning on any kind of surface with a single move.

Easy and ecological mopping without villus and stains that works flawlessly with minimum water and mild ecological cleaners.

Let's CLEAN TOGETHER!

60X40X129cm

68X36X170cm

The placement of the **TAF line** series in spots accessible to the public, attracts new customers and promotes the modern circular economy model.

The presentation of the series inside the stores is done with the specially designed stands, made of recyclable materials.

Viopsyctr launches **TAF line**'s new green series through social media and promotions in stores.

tafline.gr

viopsyctr

since 1976

Since 1976, viopsyctr has been active in the production and distribution of household and professional products.

With respect for the environment, it manufactures products from recyclable raw materials, up to 100%.

All production processes are certified according to the ISO 9001 & ISO 14001 assurance standards.
